» Students create embedded system software kits at contest

CHENAI: Rajalakshmi Engineering College at Thandalam in the city recently hosted a regional project competition 'PRAKALPA', on the use of embedded system software kits for innovative applications. The kits were developed and the competition was organised by WIPRO Technologies Mission 10X programme, as a part of its Unified Technology Learning Platform module. Participants were selected from various south zone engineering colleges comprising Tamil Nadu, Andhra Pradesh and Kerala, in the first stage. Vishwas Santurkar, vice-president and Head of Talent Transformation, Wipro inaugurated the event and P.B. Kotur, general manager and head of Higher education and Global fresher engagement programmes, Wipro participated. Rajalakshmi Institutions advisor Prof. C.R. Muthukrishnan, and college principal Prof. G. Thanigaiyarasu, were present.
