## Prakalpa at REC

A regional project competition on the use of embedded system software kits for innovative applications, Prakalpa 2016, was hosted by Rajalakshmi Engineering College, Thandalam. The kits were developed and the competition was organised by the WIPRO Technologies' Mission 10X programme, as a part of its

Unified Technology Learning Platform module, a CSR initiative. The participants were selected in the first stage from various engineering colleges in the south zone, comprising states of Tamil Nadu, Andhra Pradesh and Kerala. On this occasion, the chief guest Mr. Vishwas Santurkar, vice-president and head of talent transformation, Wipro, inaugurated the event and spoke on the need for strong industry-institute interaction.
