## **Software Competition in College**

Prakalpa, a regional project competition on the use of embedded system software kits for innovative applications, was hosted by Rajalakshmi Engineering College, Thandalam. The software kits were developed and the competition was organised by Wipro Technologies as part of its technology learning platform module. The participants were selected in the first stage from the engineering colleges in the South zone. This programme is an initiative of Wipro towards its corporate social responsibility in motivating the students and enhancing their employability. Muthukrishnan, advisor, Rajalakshmi Institutions, stressed the need for lifelong learning.
